Keystone Library Manager

The Keystone Library Automation System is designed with a consistent, intuitive interface. You can explore the entire system with just a few mouse clicks, yet behind the simple interface lies a powerful database engine capable of maintaining millions of records. Library Manager combines circulation, cataloging, searching, reporting and management in one centrally installed library software system.

Features Checklist:

- Acquisition Management-[purchase & supplier details]
- Membership Management
- User Management
- Circulation Management-Issues/Returns
- Fee Collection with print option
- Data Back-up Option
- Search Functionality
- Self-Check-in / Check-Out
- Inventory Management
- Barcode Reader
- OPAC
- Attendance of students with Barcode feature
- Works on all Windows OS.

Keystone Benefits:

1. Life-time validity
2. Online/In-person support
3. Affordable pricing
4. No Annual Maintenance Charges
5. Pricing Rs. 20,000 with Barcode-Scanner

Important Notice

Dear Valued Subscriber,

Receipt No- STM/23/24/G/0467

We are excited to announce an important update regarding our esteemed journal collection. In our continuous efforts to enhance the visibility and recognition of our publications, and to expand their reach to a wider academic audience, we have decided to rebrand and rename several journals within our portfolio.

These name modifications are being implemented as part of our application process to index our journals in renowned databases such as UGC CARE, Web of Science, and Scopus. These prestigious indexing services will enhance the visibility, credibility, and global recognition of our journals, thereby benefiting our esteemed authors and readers.

Advisory board decision to modify the journals name to fit as per focus & scope and make them more relevant for indexing and increasing their visibility.

These changes are as per industry practice and nothing exceptional.

Effective from 16-06-2023, the following journals have been renamed:

Sr. No	Modified name(STM Journals)	[Old Name]
01	International Journal of Wireless Security & Networks	International Journal of Wireless Network Security

Rest assured, these name modifications have been undertaken to align with the indexing requirements of UGC CARE, Web of Science, and Scopus. The high-quality content, rigorous peer-review processes, and commitment to excellence remain unchanged. Our goal is to ensure that our journals attain the recognition they deserve on these esteemed platforms.

To access the journals under their new names, please visit our website at <https://journals.stmjournals.com/>. You will find the updated journal names, along with their respective aims and scopes, submission guidelines, and the latest research articles. We have implemented redirects to ensure a seamless transition and easy access to the new names.

For our esteemed subscribers, please note that your subscriptions have been automatically transferred to the corresponding journals with the new names. Your access to the journals remains uninterrupted, and you will continue to receive the same high-quality content and benefits as before.

We understand that you may have questions or require further assistance. Our dedicated support team is ready to assist you. Please feel free to reach out to us at

Name: Mr. Asan Kumar

email: asank@celnet.in ,Info@stmournals.com

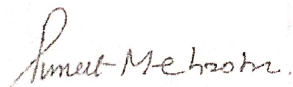

Contact details: 0120-4781225

for any inquiries related to the name modification or accessing the journals.

We would like to express our heartfelt gratitude for your continued support and trust in our publications. With these name modifications, we aim to take our journals to new heights of recognition and impact in the academic community, thereby benefiting our authors, readers, and the research community at large.

Thank you for your understanding and cooperation during this transition. We look forward to serving you under the new names and providing you with a seamless and enriching scholarly experience.

Sincerely,

Puneet Mehrotra
